PROFESSIONAL EXPERIENCE

Debbie Codes   Remote
Frelancer   July 2021 - Present

- Programmed web solutions for clients using HTML, CSS, and Javascript frameworks.

- As a freelance developer I work with various companies and help them achieve development goals, I play essential roles in the development of high-end websites.

- Providing clear documentation and technical support to the end users of each site.

- Developing and maintaining the website, front-end functionality of the website to produce clean code that follows the design and functional specifications.

- Installing and setup of existing the website, fixing website bugs and enhancing the website.

Grace Meridian Schools   Chief Waheed Eletu Way, Lekki Penninsula II 106104, Lagos
Wordpress Developer   July 2021 - Present

- Make regular backups of the site and publish new contents

- Leveraged strong understanding of WordPress core to manipulate admin and theme components.

- Monitoring the network performance to determine adjustments and resolving purposes.

- Converted design assets into component-based HTML, CSS and JavaScript.

- Prioritizing and fixing the site-related design problems and taking the initiative to implement new features based on feedback from users.

- Developing security administration applications, controlling authority levels in database transactions and minimizing safety problems.

- Effectively planning, scheduling and arranging the tasks to ensure the project moves through its lifecycle with few problems.

TheoWorld IT Services (TWITS).   No. 2 Kodesoh street, Ikeja Lagos
Coding Instructor   April 2021 - Present

- Applied various teaching aids to minimize learning gaps and instruct and motivate over 5 students.

- Evaluated and revised lesson plans and course content to achieve student-centered learning.

- Earned positive feedback from parents regarding classroom instruction and student learning success.

- Defined and articulated learning outcomes, including measurements, performance metrics and changes to improve student learning.

- Used learning assessments to regularly monitor student understanding of class concepts and materials.

PROJECTS

Brochure Website *Html, Css, Bootstrap, JavaScript, jQuery*   https://omolara5861.github.io/cake-arena/
This project is an eye-catching and cost-effective solution to promote a fictitious cake company's services.

Face Detection App (AI project with JavaScript) *Html, Css, JavaScript, Api*
https://face-recognition-psi.vercel.app/
This app uses the Face-api.js , a JavaScript API for face detection and recognition in the browser. The app captures the face in order to reveal information on one's emotional state, age and gender. This project has a reasonably good accuracy and running time.

E - commerce Website *Html, Css, Bootstrap, Javascript, jQuery*
https://omolara5861.github.io/ecommerce-site
This project focuses on the front-end, it involves the design and development of a new e-commerce platform for users to buy clothing products online.
