PROFESSIONAL EXPERIENCE

Debbie Codes   Remote
Frelancer   July 2021 - Present

- Programmed web solutions for clients using HTML, CSS, and Javascript frameworks.

- As a freelance developer I work with various companies and help them achieve development goals, I play essential roles in the development of high-end websites.

- Providing clear documentation and technical support to the end users of each site.

- Developing and maintaining the website, front-end functionality of the website to produce clean code that follows the design and functional specifications.

- Installing and setup of existing the website, fixing website bugs and enhancing the website.

Grace Meridian Schools   Chief Waheed Eletu Way, Lekki Penninsula II 106104, Lagos
Wordpress Developer   July 2021 - Present

- Make regular backups of the site and publish new contents

- Leveraged strong understanding of WordPress core to manipulate admin and theme components.

- Monitoring the network performance to determine adjustments and resolving purposes.

- Converted design assets into component-based HTML, CSS and JavaScript.

- Prioritizing and fixing the site-related design problems and taking the initiative to implement new features based on feedback from users.

- Developing security administration applications, controlling authority levels in database transactions and minimizing safety problems.

- Effectively planning, scheduling and arranging the tasks to ensure the project moves through its lifecycle with few problems.

TheoWorld IT Services (TWITS).   No. 2 Kodesoh street, Ikeja Lagos
Coding Instructor   April 2021 - Present

- Applied various teaching aids to minimize learning gaps and instruct and motivate over 5 students.

- Evaluated and revised lesson plans and course content to achieve student-centered learning.

- Earned positive feedback from parents regarding classroom instruction and student learning success.

- Defined and articulated learning outcomes, including measurements, performance metrics and changes to improve student learning.

- Used learning assessments to regularly monitor student understanding of class concepts and materials.

SKILLS

Programming Skills: HTML, CSS, Tailwind, Bootstrap, Javascript, TypeScript, jQuery, Angular, NodeJS
Soft Skills: Teamwork, Adaptability, Flexibility, Accountability, Creativity

PROJECTS

News / Entertainment Website *Html, Css*   https://omolara5861.github.io/newsgrid/index.html
This is a News website I built with pure HTML and CSS, using the grid layout system.

Brochure Website *Html, Css, Bootstrap, JavaScript, jQuery*   https://omolara5861.github.io/cake-arena/
This project is an eye-catching and cost-effective solution to promote a fictitious cake company's services.

Ecommerce Website *Html, Css, Bootstrap, JavaScript*   https://omolara5861.github.io/ecommerce-site/

This is an online store / Ecommerce site that focuses on the Front-end which the users interact with. The project isn't finished yet but it's live so my progress on it can be tracked

Face Detection App (AI project with JavaScript) *Html, Css, JavaScript, Api*
https://face-recognition-psi.vercel.app/
This app uses the Face-api.js , a JavaScript API for face detection and recognition in the browser. The app captures the face in order to reveal information on one's emotional state, age and gender. This project has a reasonably good accuracy and running time.

Dinosaur Game Clone *Html, Css, JavaScript*   https://omolara5861.github.io/Dinosaur-Game/
This is a clone version of a browser game developed by Google and built into the Google Chrome web browser. The player guides a pixelated Tyrannosaurus rex across a side-scrolling landscape, avoiding obstacles to achieve a higher score.

Angular Quiz App *Angular, TypeScript*
This project is a collection of number of different types of quizzes like technical, games, sports, etc. A user can access/play the quiz by attempting the questions. There is a limited number of questions and for each correct answer the player will get a credit score. This project is in test mode, it will be uploaded soon

Admin Dashboard *TypeScript, Angular*
This project will provide a convenient management task. It takes all the functionality of Angular CRUD operation. The admin would be able to add, edit or delete an employer's detailed information. I'm working on this project currently and would be updated soon
